POWERGRID AND AFRICA50 IN JOINT
DEVELOPMENT AGREEMENT,
TO PIONEER AFRICA'S FIRST
TRANSMISSION PPP PROJECT IN KENYA
The Power Grid Corporation of India Limited (POWERGRID) a
Maharataa CNSU under Ministry of Power, Government of India
has signed a joint Development Agreement with Africa50, the
pan-African infrastructure investment platform to continue to
develop the Kenya Transmission Project on a public-private
partnership basis. The project entails the development, financing,
construction, and operation of the 400kV Lessos - Loosuk and 220kV
Kisumu - Musaga transmission lines under a public-private
partnership (PPP) framework. Once completed, the project will be
the first Independent Power Transmission (IPT) in Kenya and will set a
reference point in Africa as the first financing of transmission lines
on a PPP basis. This Project will also improve both the supply and
reliability of power transmission in Western Kenya and further
create a demonstration effect to help increase private sector
investments into the expansion of Africa's power transmission
networks, which is critical to bridging the continent's electricity access gap.
In this development partnership, POWERGRID, one of the world's
leading electric transmission utility companies will provide technical
and operational know-how to the project, while Africa50 will bring
its project development and finance expertise and will act as a bridge
between the Kenyan government and private investors. Signing on
behalf of POWERGRID, the Chairman and Managing Director, Shri
K. Sreekant, said: "POWERGRID is pleased to partner with Africa50
in undertaking development of first PPP mode transmission project
in Kenya. Transmission plays an important role in bringing electricity
to the entire electricity supply chain.
A robust transmission network not only imparts reliability and
security to the electricity grid but also allows non-discriminatory
access to buyers and sellers which spurs the competition that results
into competitive electricity prices to ultimate consumer. POWER-
GRID hopes that the present transmission project in Kenya shall
serve as a Model for undertaking more such projects in Kenya as
well as other African countries. POWERGRID with its rich technical
and managerial experience in undertaking transmission systems
under PPP mode shall be pleased to be associated in this journey".
Commenting on the signing, the CEO of Africa50 Alain Eboissé
said, "We are very pleased to partner with the Government of Kenya
and POWERGRID to implement this important and pioneering project
in one of our shareholder countries. In the past few years, a lot
of emphasis has been placed on attracting private investments in
energy production infrastructure in Africa".
